The Company known throughout the world as the

Having met with the bighest suc ess in the manufacture and sale of the excellent liquid laxative remedy, Syrup of Figs, it has become important to all to have knowledge of the Company and its products. The great value of the remedy as a medicinal agent, and of the Company's efforts, is attested by the sale of millions of bottles annually and by the high approval of most eminent physicians

The California Fig Syrup Co. was organized more than twelve years ago, for the special purpose of manufacturing and selling a laxative remedy, which would be more pleasant to the taste and more beneficial in its effects than any other known. In the process of manufacturing, figs are used, as they are pleasant to the taste, and healthful Oceanic wharf. in their tendencies, but the medicinal properties of the femely are obtained from an excellent combination of plants known to be medicinally laxative, and to act most beneficially.

If in the enjoyment of good health, and the system is regular, then laxative or other remedies are not needed. If afflicted with any actival disease one may be commended to taking the most skillful physicians, but if in need of a laxative, then one should have the best and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general ket wharf. A. Frank Cooke has pursatisfaction.

His Way Cleared.

The young man who had been out west mining for so long that he was afraid he had forgotten his company manners was a little nervous over his first dinner party.

"There are always so many thousand new forks and funny shaped spoons around a man's plate in these houses where there are rich husbands and young wives that a man who has been out of it for a couple of years is pretty sure to do the wrong thing.
"It proved just as I feared. The two
women were magnificently gowned and
had the airs of countesses. There were
several men, decently gotten up, besides

the husband of •e friend of the hostess.
"I was picking my way along very care fully through all those forks and things when I saw the sauterns coming in a basket. I watched it go around the table and felt my backbone get stiffer every minute, but I didn't dare catch the eye of

the man opposite.
"Finally the friend of the hostess is came so impressed that she absolutely for-got her stateliness. 'Job, dear, we really must have some of those little baskets too.

I think they're awfully cute. "I ate the rest of my dinner with my most haughty, man of the world manner," concluded the man from the west, "and the fork that came handlest,"-New York

The Unit of Heat.

We cannot, of course, measure heat by yards, pints or pounds, but the unit of heat, the standard measure of that phedomenon, has been agreed upon by those whose business it is to philosophize on that subject to be that quantity which can raise a pound of water one degree. Now, to turn a pound of water into a pound of steam it requires 967 of these units of heat -that is to say. If we boil a pound of wa-ter until it all goes away in steam, we shall have used in doing so a quantity of heat which would have raised 967 pounds of water one degree higher in temperature. -St. Louis Republic.

The Shahs of Persia.

The present shah of Persia ascended the throne in 1896, directly after the assassing tion of his father. The kingdom of Persia was founded by Cyrus the Great, who reigned from B. C. 559 to B. C. 529. From his accession to the present time there have been four great dynasties, which, with their collateral branches, have ruled the country during the intervening time. In all Persia has had about 118 kings—Per-sian, Tartar, Greek and Mogul.

The Malay language, spoken in the south seas, is softer than the Italian and is said to be totally unlike any other known language.

The very first of the living skeletons ever exhibited in modern times was a Frenchman named Claude Seurat, who was born

Hawaiian

Electric Company.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have you want.

them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.
